

Activity Report

Week commencing: 14th September 2020

Team Shift Activity:

number of shifts:	0
number of taskings:	0
number of patient involvements:	0
number of governance procedures:	0

Solo Activity:	active Responders:	CB664			
	number of taskings:	7			
	number of patient involvements:	6			
	number of governance procedures:	0			
	Tasking Types:				
	<i>trauma</i>	5	<i>adult</i>	6	
	<i>medical</i>	2	<i>paediatric</i>	1	
	<i>cardiac arrest</i>	0			

Case	Res	Date	Age	gender	type	Job description	S/D	Scene time	Total time	General interventions	Governance interventions	Adverse events
1	CB664	16/09	35	Male	Trauma	Van vs stone wall	no	00:25	00:52		no	nil
						<i>Additional comments:</i> van with driver as sole occupant vs stone wall WAST & EMRTS first on scene casualty being prepared for RSI as I arrived						

2	CB664	17/09	?	Female	Trauma	RTC – Car vs Motorcycle	no	00:31	01:02		no	nil
<i>Additional comments:</i>						<p>RTC involving small hatchback and motorcycle car driven by elderly female had overturned male motorcyclist had been trapped by left arm under vehicle initially but had self-extricated WAST crews and helimed 57 already on scene by the time I arrived no significant injuries - casualties transported to local hospital(s)</p>						
3	CB664	18/09	50	Male	Medical	31D03 - unconscious in street	no	00:04	00:09		no	nil
<i>Additional comments:</i>						<p>Likely intoxicated - roused by WAST personnel first on scene. i was immediately re-tasked to another incident.</p>						
4	CB664	18/09	25	Male	Trauma	Fall from bridge - TCA	no	00:16	00:35		no	nil
<i>Additional comments:</i>						<p>Fall from bridge over road (approx 10m); 29d01t Very significant depressed fracture of L fronto-parietal area. fracture line palpable across forehead Patient asystolic from arrival of first personnel on scene casualty about to be pronounced life extinct just as I arrived and I concurred. casualty's age an estimate only</p>						
5	CB664	18/09	40	Male	Medical	Found unresponsive in police cell	no	01:09	01:11	IV access	no	nil
<i>Additional comments:</i>						<p>intoxication , in cells after alleged assault. had seemed intoxicated and had been checked half-hourly. found unresponsive/unrousable. ? delayed effect of ingested substance(s) or had taken additional... IV access with difficulty. Naloxone 800mcg IM and 400mcg IV with no significant change in GCS but RR recovered to 19-22/min. Patient conveyed to Morriston Hospital once EA available.</p>						
6	CB664	19/09	16	Male	Trauma	Moped rider vs tree: 29d03	no	02:55	02:50	immobilised, IV access, warming, assisted transfer	no	nil
<i>Additional comments:</i>						<p>speed limit on road 30mph found prone on grass verge by off-duty cardiology trainee from Brompton. kept in that position because of neuro symptoms. "sore" neck; numb L lower leg and unable to move L foot Good quality helmet - minor scratches only c/o pain in ring and little finger of left hand, down right side and in left knee</p>						

						no obvious long bone/pelvic injury. Rolled onto scoop and helmet removed. *discussed with trauma desk as per new triage tool. agreed Morriston was appropriate destination.						
7	CB664	19/09	-	-	Trauma	Car vs pedestrian	yes	-	00:10		no	nil
	<i>Additional comments:</i>					29d06v; Sa3 4jt - "car gone over the cliff" - "someone been run over" offered to go because of possibility of multiple casualties in/under vehicle(s). HART and Helimed65 tasked and then message that helimed from devon was coming (uncertain whether doctor on board; hart stood down						

key – Res = responder, S/D = stood down?, time = hour:mins

Case Reviews

no governance to review
