5	CB664	12/12	2	male	medical	11E01F – choking child	no	-	-	no	no	nil
		•	•	Additional	comments:	11E01F - a child was reported to be chol	king and	appeared blue	•			
						Police/EA first on scene - The child was a	already b	reathing/crying	g by the time I a	arrived. No further interve	ntion required from me.	
6	CB664	12/12	66	male	medical	10D04 at private address.	no	-	-	no	no	nil
				Additional	comments:	The patient had had an episode of chest	pain wh	ile preparing m	eal. the pain w	as L sided and had lasted	for 5 mins only. He had begun	to feel sweaty
						before it spontaneously resolved. The p	atient wa	as feeling "fine"	by the time I s	aw him.		
						history, examination, observations and s	serial ECO	Gs.				
						No definite diagnosis established.						
						Patient left at home with documentatio	n and wi	th advice to cal	l 999 if recurre	nce and to see GP anyway	at earliest opportunity.	
						this was an amber 1 with no other resou	ırces ava	ilable.				
						the address was near the location of the	previou	s incident i had	attended so I d	offered to see the patient.		
						Letter done to GP						
7	CB664	12/12	23	male	trauma	27D04S - assault	no	-	-	no	no	nil
				Additional	comments:	The casualty had been punched in the b	ack while	e using an ATM	. He then realis	ed that he had actually be	en stabbed.	
						He had made his way to the police station	on at gro	ve place.				
						["IV access"]						
						["Assisted Transfer"]						
						The casualty was in the back of the EA b	y the tim	ne I arrived.				
						He was haemodynamically stable with a	single 1	cm wide incisio	n in his lower b	ack just to the R of the mi	dline.	
						No neurological injury apparent.						
						He was discussed with the Trauma Desk	and it w	as agreed that	he would be co	nveyed to Morriston.		
8	SB5854	12/12	19	female	trauma	RTC	no	-	-	yes	no	nil
				Additional	comments:	Car into tree.						
						Front seat passenger trapped. Compour	nd Left Ti	b and Fib. Seco	nd patient with	? mid shaft Right femur,	two others walking wounded.	
						EMRTS attended. joint co-operative Tea	m appro	ach to scene ar	nd patient mana	agement.		
						Initially unable to gain access to patient	to estab	lish IV				
						Monitored until Fire and Rescue had rer	noved ro	of to establish	route for extric	ation		
						IV established by Dr Roberts(EMRTS)						
						Analgaesia and TXA.						

9	SB5854	12/12	70	male	arrest	Drowning	no	-	-	no	no	nil	
	Additional comments:					Patient had drowned in the bath.							
						? deliberate intent.
