

Activity Report

Week commencing: 26th April 2021

Team Shift Activity:	number of shifts:	0
	number of taskings:	0
	number of patient involvements:	0
	number of governance procedures:	0

Solo Activity:	active responders:	CB 664, SB 5854
	number of taskings:	8
	number of patient involvements:	7
	number of governance procedures:	0
	Tasking Types:	
	<i>trauma</i>	6
	<i>adult</i>	5
	<i>medical</i>	1
	<i>paediatric</i>	3
	<i>cardiac arrest</i>	1
	<i>other</i>	0

Case	Res	Date	Age	gender	type	Job description	S/D	Scene time	Total time	General interventions	Governance interventions	Adverse events
1	CB664	26/04	50	male	trauma	Paedestrian vs Train	no	-	-	yes	no	nil
	<i>Additional comments:</i> The casualty had been seen to walk off the platform onto the tracks in front of a train which was slowing to a stop. HART were just about to remove the casualty from under the train as I arrived. Primary survey - head injury (but GCS 14), mangled R hand. ?abdo/pelvis. ["Immobilisation"] Fentanyl 100mcg Collaborative working with HART other WAST personnel and H67. Casualty transferred by road to UHW with EMRTS escorting.											
2	SB5854	26/04	15	female	trauma	Hanging	no	-	-	yes	no	nil
	<i>Additional comments:</i> reports of 15 year old female? Hanging. On arrival conscious and breathing. Ligature marks on neck. Transfers to UHW arranged for urgent review and psychiatric evaluation											
3	SB5854	27/04	53	male	trauma	Shooting	no	-	-	no	no	nil
	<i>Additional comments:</i> Reports suggested shotgun injury to face.											

						On arrival at scene, patient clearly deceased, and property on fire. Petrol appeared to have been poured around ground floor and stairs. Significant fire ensued. No clinical intervention needed for patient.						
4	SB5854	29/04	84	male	arrest	witnessed arrest.	no	-	-	yes	no	nil
	<i>Additional comments:</i>					Multiple comorbidities, Parkinsons disease, IHD, CCF ["LUCAS"] ECG showed paced rhythm but no output. Not true PEA, just cardiac standstill with ongoing pacemaker activity. ROLE at 23 minutes. Explanation to WAST staff regarding apparent ROLE in ?PEA						
5	CB664	01/05	16	male	trauma	29D02L - RTC	no	-	-	yes	no	nil
	<i>Additional comments:</i>					scooter rider vs small hatchback at junction of roads with nominal speed limit of 30mph. Fractured L femur. pillion passenger not obviously injured but later complained of pain in L knee and started limping. Analgesia, Fentanyl 150mcg total, Ketamine 40mg total KTD. ["Limb splinting"] Co-amoxiclav Escorted to hospital in company of mother. Pillion taken to Morriston by off-duty student nurse. All monitoring on WAST Corpuls. Uncomplicated transfer; pre-alert given.						
6	CB664	01/05	83	female	trauma	29D06	yes	-	-	no	no	nil
	<i>Additional comments:</i>					casualty allegedly knocked down by husband. Nil - stood down en route; RRV first on scene reported "injuries incompatible with life"						
7	CB664	01/05	3	female	medical	17D02 – unwell child	no	-	-	yes	no	nil
	<i>Additional comments:</i>					- the child had been non-specifically unwell for two days and had fallen and been unresponsive Noted flexion posturing of upper limbs + trismus. GCS 3. T = 38.3C. , CBG 10.7mmol/l. Simple airway manoeuvres (NP not tolerated). O2 via NRBFM.						

						Authorised rectal diazepam 5mg. GCS improved to 6 en route. Uncomplicated transfer and patient's GCS further improving at time of handover to paed.						
8	CB664	01/05	57	female	trauma	17D04E – Fall, leg injury	no	-	-	no	no	nil
	<i>Additional comments:</i>					fall in garden and possible fracture of L ankle/distal tib &/or fib. Examination only - patient declined additional analgesia having already had ibuprofen and paracetamol PO. Assisted casualty indoors to await EA. Assisted with splinting.						

key – Res = responder, S/D = stood down?, time = hour:mins

No Governance to review
